H\Y'7F9F'9IUa]bUh]cb.

1. The applicant must complete a 2-hour, closed-book, written examination. The examination questions are based on the listed exam topics and required body of knowledge. For an updated list of exam topics and item references to use in test preparation, visit www.acac.org.
2. The examination is closed-book! It is strongly recommended that candidates read the reference materials listed above before taking the examination.
3. There are 50 questions on the examination. Each question is multiple-choice with at least four (4) possible answers. A score of 70% must be achieved to pass this examination.
4. The examination is delivered electronically at an authorized testing center operated by Kryterion, Inc. There are no paper exams. Once a complete application packet is on file in the Council office, the candidate may register for the examination by calling the office at (888) 808-8381.
 - § Candidates should arrive 30 minutes before the testing appointment.
 - § Candidates must present two forms of government-issued identification at the testing center, one of which must be picture ID.
 - § Candidates must follow proctor instructions with regard to the use of personal belongings and test materials, including submitting eyeglasses and exterior pockets for inspection.
 - § Candidates failing to abide by these rules will not be permitted to sit for the exam, and a re-examination fee will be required.
5. All examinations contain the same questions; however, the examination questions are presented to each candidate in random order and the examination answers are presented to the candidate in random order.
6. Examinations are graded electronically at the testing facility, and scores are available to candidates immediately. An email is sent to the candidate's email address confirming test results.

H\Y'7Yfh]Zm]b['6cXm.

1. The American Council for Accredited Certification is the certifying body for this certification program.
2. All decisions regarding application materials, examinations and the awarding of certifications are made by the CRER Certification Board, which functions as part of the American Council for Accredited Certification.
3. The certifying body's responsibility to applicants is to provide a credible certification. Operation of the certification program is closely monitored to ensure that reference materials remain current with the industry guidelines and standards and the eligibility requirements for certification are at appropriate levels. Examination questions are developed by certified personnel who are currently active in the field of infection control. Pass/fail scores are set by the CRER Certification Board at the ACAC annual meeting using the modified Angoff method. The Board authorizes an annual statistical review of examination item performance and test reliability and updates the examination to reflect the latest changes in our rapidly evolving field.

ACAC certifications are current for two years from the date of issue. The certificate holder must accumulate forty (40) Re-certification Credits (RCs) prior to the certificate's expiration date. Each RC represents one (1) hour of continuing education in a Council-registered activity. The certificate holder may accumulate the required hours at any time during the two-year certification period. An updated list of activities which qualify for RCs is available on the Council website at www.acac.org.

Council-certified Indoor Environmental Supervisors who do not acquire sufficient CRER Re-certification Credits by their recertification date will be notified in writing to cease using the CRER designation. They will be listed as expired on the Council website and will no longer be listed as a CRER in any ACAC publication until such time as they resubmit to the certification process and successfully meet the current criteria for certification. Appropriate fees will apply.
